

CERACOAT CERAMIC™ SC

FACTORY COATING | SWISS SOLAR

COATED AT THE FACTORY. SHIPPED READY TO INSTALL.

Swiss Solar will apply Ceracoat directly at the factory to the PHANTOM 650 W modules for the project discussed. The modules will then be shipped already coated with **Ceracoat Ceramic self-cleaning coating**.

Planned shipment packaging supplied for this project

30 YEARS

PRODUCT WARRANTY PERFORMANCE WARRANTY

Swiss Solar has confirmed by email that both its 30-year product warranty and 30-year performance warranty remain applicable with the factory-applied Ceracoat coating.

PROTECTION BEFORE DELIVERY

Factory application includes the additional production process, handling, internal logistics and quality control. Panels arrive coated, ready for normal installation.

FORMAL CONFIRMATION TO FOLLOW

The manufacturer has offered to provide formal confirmation for the project documentation. This summary covers the PHANTOM 650 W modules with factory-applied Ceracoat for this project; the manufacturer warranty terms govern coverage.

Powered by Sun. Cleaned by Rain. Protected by Ceracoat.
